## Summary

**Enterprise Business Analyst & Experience Architect** with 20+ years driving experience architecture and customer-centric strategies for Fortune 100 enterprise ecosystems. Proven track record translating complex business models into seamless digital products that scale to 30M+ users. Expert at bridging CX, product, and executive stakeholders to accelerate time-to-market, reduce friction, and increase revenue.

## Core Competencies

- **Design & Strategy:** Product Design | Requirements Elicitation | User Stories & Functional Specifications | Service Design | Design Systems and Governance | Journey Mapping | Root Cause-Gap Analysis | UAT/Testing Support | Agile/Scrum Ceremonies
- **Leadership & Execution:** Cross-Functional Team Leadership | Agile/SDLC | Friction Audits | Stakeholder Alignment | Design Mentorship.
- **Tools & Artifacts:** Figma Component Libraries | Jira | Wireframing & Prototyping | Generative AI for UX (Gemini | Claude Code | Copilot) How I use AI in projects.

## Relevant Work Experience

- **Collaborate with multiple teams and align stakeholders to solve for ambiguity:** Create an end-to-end product vision in an ambiguous space using compelling storytelling, research, and prototyping; driving consensus with executive stakeholders and third-party partners.
  *Case Study: Netflix and Max.Own and define the end-to-end experience, and remove ambiguity for a new streaming launch*
- **Use customer insights, prototyping and iteration to incrementally improve, then revamp our mobile plans architecture:** Take customer research and data to develop multiple design concepts, iterate and test, and ultimately create a new product to differentiate Verizon in the market.
  *Case Study: Address current friction points in our mobile plans today. Identify opportunities for future direction of mobile plans to distinguish Verizon.*
- **Work strategically from high level vision through detailed experiences across multiple channels, products and teams**.
  *Case Study: Build an end to end experience across channels, functions and business units to satisfy FCC requirements.*
- **Mentoring teams, working in Agile, and evolving our ways of working:** Mentor CX teams within the organization; meet daily to review/revise user stories and designs with broader teams, perform backlog grooming, hold retrospective reviews of projects; all toward evolving our ways of working and processes in the broader organization.

- **Incorporate AI into my everyday work:** Use agentic and generative AI (Gemini, Claude Code, Copilot, Figma Make) strategically to improve work flow - brief creation, research, competitive analysis, requirements definition/identifying gaps, prototyping, and more - but keep the human in the lead. Examples of how I use AI in projects.

# Professional Experience

## Verizon Consumer Group (VCG) - Basking Ridge, NJ

Principal experience architect/design strategist on VCG for Mobile and other digital products.

**Principal Experience Architect** (2024 – Present)
- **Define Product Vision:** Lead end-to-end product vision for mobile products, turning complex business rules into simple digital journeys for customers.
- **Partner with research and other teams to influence strategic direction:** Address current friction points in our mobile plans today, and identify opportunities for future direction of mobile plans to distinguish Verizon from the competition.
- **Cross-functional alignment & stakeholder leadership:** Led collaborative workshops with business, product, and design leaders to solve technical issues and align cross-channel strategies.
- **Mentorship & practice development:** Mentored junior and mid-level CX and design teams on domain knowledge, design skills, system thinking, and presentations - to foster a design-led culture.
- **Design system & process governance:** Created reusable Figma templates and guidance to help the team launch new promotions faster.

**Lead Experience Architect** (2021 – 2024)
- **Flagship product strategy (myPlans):** Redesigned the main "myPlan" offerings to simplify customer choices and encourage higher-value plans. Smoothed out friction and increased conversion for customers adding a line, by clearly indicating the low cost of adding a 3rd line, adding $8.4M/mo in revenue.
- **Own end-to-end experience for new streaming launch:** Launched a new streaming combo service (Netflix/Max) that fit the existing service model, satisfied our partners, and removed ambiguity for customers. Remains Verizon's second-best-selling perk, on nearly 11 million mobile accounts.
- **Modernized product experience to increase sales:** Led CX updates for connected device plans (tablets and smartwatches), directly contributing to tablet premium plan activations performing 3.3% above forecast.
- **Cross functional, cross-channel, cross-business unit product label experience:** Spearheaded the UX design and cross-platform implementation for FCC-mandated product labels across all mobile and home services, meeting legal requirements without negatively impacting the plans experience.

**Senior UX Designer** (2016 – 2021)
- Optimized the Learn & Buy sales funnel on Verizon.com, enhancing web and mobile journeys for 32M+ active users.
- Delivered high-fidelity wireframes, interactive prototypes, and user flows in close collaboration with development and brand teams.

## Deloitte Touche Tohmatsu - Princeton, NJ

Lead business analyst/designer of internal systems for the largest professional services firm worldwide, used by 15,00 audit and assurance professionals worldwide.

**Senior Business Analyst/Designer** (2010 – 2016)
Manage requirements and design of key functionality for desktop and web-based applications throughout the product life cycle. Work with other teams, including product owners, technical leads, firm technical architects and infrastructure, branding and legal teams to ensure solutions meet technical and quality guidelines.

- Understand user needs and delights, and translate into technical specifications that leverage existing technologies and patterns. Create wireframes, process flows, personas, design patterns, iconography to support consistent, usable products and processes that are aligned with firm branding and approach.
- Envision, deliver and support the EMS (Engagement Management System) product used by 80,000 client service professionals in 32 countries to perform their daily work on an audit engagement
- Envision and launch Innovation Portal for global member firms that highlighted and promoted technical tools and applications for client service professionals
- Design desktop and web applications from high level concept to wireframe, including personas, styles, controls, navigation, site maps, and page flows within an SDLC environment for a global audience of 80,000 client service professionals.
- Create prototypes to drive and validate the user experience within technological constraints, using various mediums, including paper, PowerPoint, Photoshop, prototype solutions (Balsamiq, Axure) Visio, and HTML; validated through surveys, interviews, and usability testing
- Triage and manage defects and support tickets from the field, and manage the product backlog of enhancement requests and internal defects for multiple products
- Led user acceptance and usability testing sessions on a bi-weekly, and quarterly basis
- Work with product development teams and firm legal and branding leaders, to develop standards and supporting materials for User Interface Design - including UI patterns libraries, navigation guides, branding and style guides for multiple products.
- Define global standards for design and stimulate creative/design discussions for the global organization - Served as brand ambassador for Deloitte Creative Exchange group on Yammer, part of the team that developed design process framework for Global Technology Services (global technical organization), member of Design Communities of Practice in Deloitte.
- Develop graphic materials, including iconography, conceptual diagrams and infographics to support global applications
- Support member firm translation of EMS and other solutions, working directly with Japan, Canada and Chinese business and technical teams - proactively identifying defects and issues throughout the product life cycle, educating team members and clients, and improving processes
- Develop help, performance support and learning materials to support multiple products

**User Experience Designer** (2004 – 2010)

- Designed enterprise web/desktop applications, delivering wireframes, process flows, site maps, and UI pattern libraries.
- Wrote comprehensive user guides and support materials to help employees worldwide adopt new software.

**Multimedia Specialist** (2001 – 2004)

- Developed interactive product demos and visual prototypes to support global software

rollouts.

**Technical Writer** (1995 – 2001)

- Authored user documentation and help guides for desktop applications serving 20,000 global users.

### Additional Experience (pre- 2000s)

**Instructional Designer - Eduneering**
Small, start up tech consulting firm, specializing in regulatory training for energy, food manufacturing and pharma industries. (Owned by UL Solutions today).

- Designed interactive computer-based training modules for Fortune 500 clients in the energy and telecommunications industries.

**Editor - Cranbury Publications**

- Managed production, design, and writing staff for local newspapers and oversaw the startup of a new publication.

## Certifications & Education
